

01

- Lamp temperature control
- Fan speed control
- Stop timer
- Emergency button

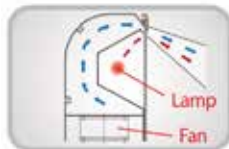

02

Flexible design, adjust height, angle and tilt of heating unit

03

Up to 248°F(120°C) surface temp

04

Air Knife - Located on the bottom, the fans blows a strong stream of air and acts as a barrier preventing warm air from raising before it hits the media

Infra Red Drying Systems

Feature

- Immediate and complete drying of printed media
- Uniform heat distribution across entire surface
- Compatible with all brands of wide format printers
- Compatible with Eco Solvent and Sublimation inks

Model	Drying Width	Height	Electricity Consumption	Power Requirement
SDSWT-600	24"(600mm)		1KW	
SDSWT-600	36"(900mm)		1KW	
SDSWT-600	54"(1300mm)	Min. 650 ~	1KW	200-240V, 50/60Hz
SDSWT-600	64"(1600mm)	Max. 850	1.5KW	
SDSWT-600	74"(1900mm)		1.5KW	
SDSWT-600	102"(2600mm)		2KW
